# Muhammad Afaq Riaz

Sr. Mobile Application Developer @ Technology Rivers | React Native, iOS Development, Android Development  
Pakistan

## Summary

With a Bachelor's degree in Computer Science and over four years of professional experience, I am a passionate and skilled mobile application developer who delivers high-quality solutions for clients across various industries. I have expertise in designing and implementing mobile applications for both iOS and Android platforms, using technologies such as React Native, Flutter, Java, Kotlin, and Objective-C.

Currently, I work as a Senior Mobile Application Developer at Technology Rivers, where I collaborate with cross-functional teams, manage projects from start to finish, and deliver innovative solutions that meet clients' unique needs. Previously, I led a team of developers at Genesis IT Lab, where I developed cutting-edge mobile applications for clients, honing my leadership and project management skills. I also have extensive freelance experience, where I have demonstrated strong communication and problem-solving skills, as well as a deep understanding of the mobile application development process. I am a proactive team player who is always eager to contribute to team success and learn new skills.

## Experience

### Technology Rivers

Sr. Mobile Application Developer  
August 2022 - Present (2 years 7 months)

I am a seasoned Senior Mobile Application Developer at Technology Rivers, where I spearhead the end-to-end development of cutting-edge mobile applications using React Native and Flutter. With a keen eye for detail and a passion for delivering exceptional user experiences, I thrive in dynamic environments and have a proven track record of successfully bringing projects from conception to deployment.

## Key Contributions:

Mobile App Maestro: Leading end-to-end development of top-notch mobile applications with React Native and Flutter, crafting seamless user experiences.

Strategic Insights: Produced forecasts, presented reports in monthly senior management meetings, aligning development with organizational goals.

Agile Aficionado: Flourished in Agile environments, adapting to evolving project needs and contributing to iterative development processes.

CI/CD Maestro: Established robust CI/CD pipelines, enhancing development efficiency and ensuring smooth feature integration.

App Store Guru: Expertly managed Play Store and App Store accounts, overseeing submission and approval processes for timely deployment.

Codebase Custodian: Managed codebase of ongoing projects, ensuring quality, version control, and adherence to best practices.

Backend Synergy: Collaborated on NestJs, developing REST APIs and ensuring seamless frontend-backend integration.

Architectural Maven: Proposed and implemented robust architectures for ongoing projects, optimizing performance and ensuring scalability.

Project Presenter: Successfully presented completed projects to upper management and clients, securing final approvals.

At Technology Rivers, I drive innovation in mobile app development, creating immersive digital experiences.

## Genesis Lab

1 year 6 months

Mobile Application Team Lead

October 2021 - August 2022 (11 months)

Islāmābād, Pakistan

As the Team Lead for Mobile Application Development at Genesis IT Lab, I led a dynamic team of developers in crafting innovative mobile applications using React Native. This role encompassed various responsibilities, from project management and strategic planning to technical execution and client engagement.

#### Key Achievements:

##### Leadership and Team Management:

- Led a professional development team, fostering collaboration and innovation.
- Managed the codebase of ongoing projects, ensuring high code quality and adherence to best practices.

##### Project Development and Analysis:

- Developed React Native mobile applications from inception to completion.
- Analyzed project requirements and formulated timelines, ensuring timely project delivery.

##### Strategic Planning and Reporting:

- Produced forecasts and presented detailed reports in monthly meetings with senior management.
- Thrived in an Agile environment, adapting to changing requirements for continuous improvement.

##### CI/CD Pipeline Implementation:

- Implemented robust CI/CD pipelines for efficient and reliable application development.

##### App Store Management:

- Established and managed Play Store and App Store accounts, ensuring compliance and smooth submissions.

##### Collaboration with Backend Team:

- Worked closely with the backend team, integrating front-end and back-end functionalities seamlessly.

##### Client Interaction and Project Presentation:

- Analyzed product development requirements, translating client needs into actionable project plans.

- Presented finished projects to upper management and clients for final approval.

In this role, I excelled not only in technical aspects but also in leadership, strategic planning, and effective communication with stakeholders. My commitment to excellence and passion for impactful solutions positions me as a valuable asset to any forward-thinking organization.

#### Mobile Application Developer

March 2021 - October 2021 (8 months)

As a Senior Mobile Developer at Genesis IT Lab, I specialized in crafting impactful mobile applications using React Native, and Native development. My role focused on the technical intricacies of development, project analysis, and seamless collaboration within cross-functional teams.

#### Key Contributions:

##### Mobile App Development Expertise:

- Contributed significantly to the development and optimization of React Native applications, ensuring high-quality, performance-driven solutions.

##### Strategic Technical Planning:

- Engaged in strategic technical planning, aligning development initiatives with organizational objectives and industry best practices.

##### Agile Development Approach:

- Adapted seamlessly to an Agile environment, responding effectively to evolving project requirements and actively contributing to continuous improvement.

##### Efficient CI/CD Pipelines:

- Implemented and maintained robust CI/CD pipelines, enhancing development efficiency and ensuring reliable application delivery.

##### App Store Management Proficiency:

- Managed Play Store and App Store accounts, navigating platform guidelines to facilitate successful and timely application submissions.

##### Quality Assurance and Testing:

- Authored comprehensive unit tests for modules under development, guaranteeing the delivery of bug-free and high-performance applications.

#### Effective Backend Collaboration:

- Collaborated seamlessly with backend teams to integrate and optimize front-end and back-end functionalities for cohesive application experiences.

#### Client-Focused Development:

- Translated client requirements into actionable development plans, ensuring technical solutions aligned with and exceeded client expectations.

#### Clear Communication and Presentation:

- Effectively communicated technical aspects to upper management and clients, facilitating transparent and collaborative decision-making processes.

### Storichain

#### React Native Developer

April 2021 - August 2022 (1 year 5 months)

Rawalpindi, Punjab, Pakistan

### Aimbros Creation (PVT) LTD

#### React Native Developer

August 2018 - February 2021 (2 years 7 months)

Islamabad, Islāmābād, Pakistan

- Led the end-to-end development of cross-platform mobile applications for Android and iOS, focusing on seamless integration with backend web services.
- Managed user authentication, account and transaction management, and enabled both internal and external financial transfers, including Remote Deposit Capture (RDC) functionality.
- Integrated multiple payment gateways (PayPal, Stripe, Skrill), ensuring secure, efficient, and flexible payment options for enhanced user experience.
- Collaborated with end-users to gather requirements, conducting needs assessments and implementing feature requests to ensure alignment with user expectations.
- Identified and resolved defects across multiple mobile applications, effectively communicating with development teams to ensure smooth functionality.

- Planned and prioritized development tasks, delivering key features and enhancements on time and within scope.
- Contributed to the development and maintenance of automated testing suites, streamlining the testing process and improving the overall stability and quality of applications.
